

Complete Solutions for Radioactive Materials

Curie Environmental Services, LLC, a Tradebe Company, provides compliant, full-service radioactive waste solutions tailored to your materials, site, and goals.

From our licensed facility in Albuquerque, NM, to sites nationwide, we simplify radioactive materials management with mail-back kits, licensed waste handling, and expert field services.

Licensed to manage over **70 isotopes** and authorized under **10 CFR Part 110**, we serve healthcare, education, remediation, & industrial sectors. Our services reduce risk, ensure compliance, and support environmental responsibility at every step.

MAIL-BACK PROGRAM

Our nationwide Mail-Back Program offers a compliant and convenient way to recycle small quantities of radioactive materials. Each kit includes DOT-approved packaging, prepaid shipping, and step-by-step instructions, allowing you to safely return items like smoke alarms, exit signs, and sealed sources with full regulatory support.

Smoke Alarm Recycling

Compliant recycling for ionizing & non-ionizing smoke/CO detectors.

- Am-241, Ra-226, and Ni-63 alarms
- Kit options from 1 to 155 Alarms

Exit Sign Recycling

Retire Tritium Exit Signs without the regulatory headache.

- Expired or damaged H-3 signs
- Kit options up to 10 signs & more

Self-Luminous Products

Solutions for overlooked consumer and industrial items.

- Watches, gauges, compasses
- Ra-226, H-3, Pm-147 devices

Uranium & Thorium

Close the loop on legacy materials and research waste.

- Acetates, nitrates, oxides, & more
- DOT Class 7, 5.1, and 8 packaging

Lead Shielding Recycling

Protect health & the environment with responsible recycling.

- Medical aprons, bricks, & shielding
- Dental, healthcare, and industrial

Ni-63 ECD Recycling

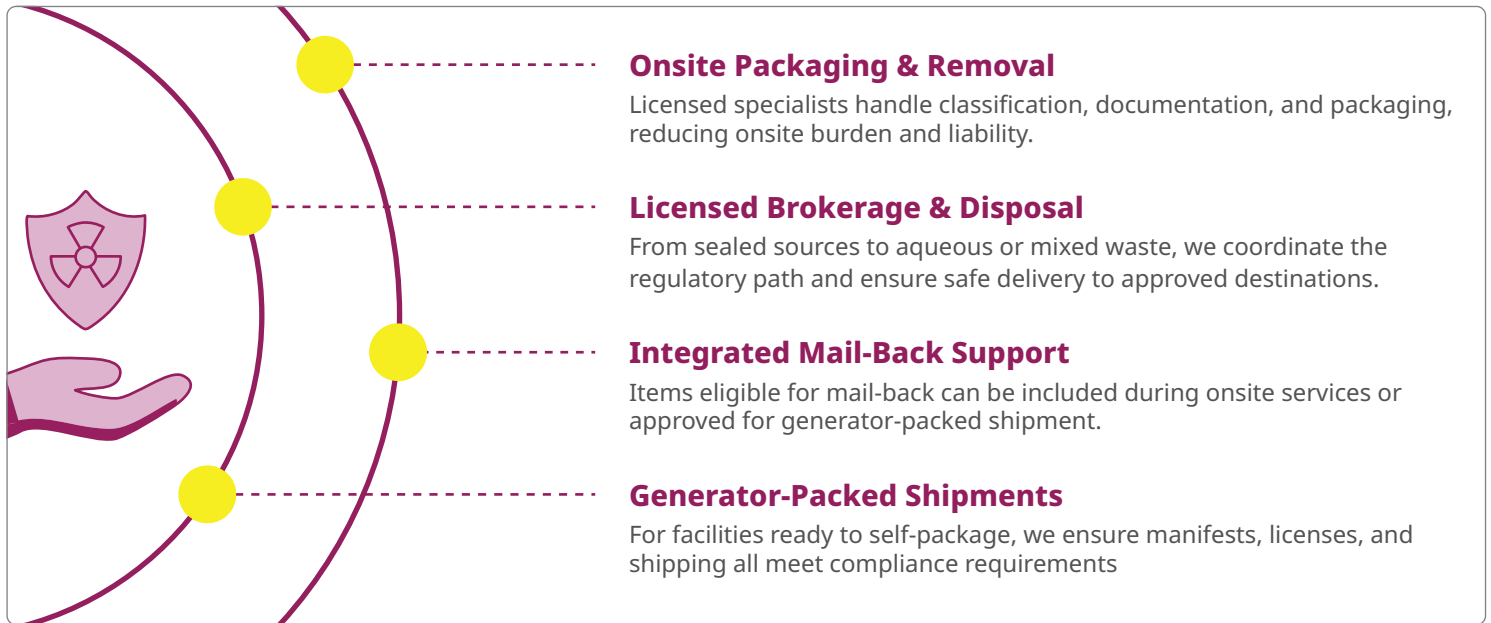

Safely retire gas chromatograph detectors with confidence

- Leak testing and certification
- Trusted by labs and universities

RADIOACTIVE MATERIAL MANAGEMENT

Every facility faces unique challenges when managing radioactive materials. That's why Curie offers adaptable services tailored to your needs, whether onsite, offsite, or somewhere in between. Our licensed team helps classify, package, ship, and dispose of radioactive materials in full compliance with NRC, DOT, and Agreement State regulations.

RADIOLOGICAL FIELD SERVICES

When radioactive materials must be removed, remediated, or managed directly at the source, Curie brings licensed field teams to you. We deliver structured, site-specific solutions for high-risk environments, supported by detailed planning, strict safety procedures, and full regulatory compliance.

Facility Decommissioning

Restore or repurpose sites with confidence.

- MARSSIM-compliant final surveys
- Waste packaging and regulatory closure

Nuclear Gauge Removal

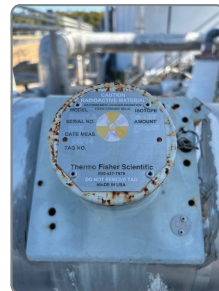

Safe removal of fixed industrial gauges.

- Decay calculations, ALARA handling
- Coordinated shipment and disposal

NORM/TENORM Waste Management

Managing radiation where it's found.

- Radiation monitoring & equipment cleaning
- Scale, sludge, and pipe disposal

Our 4-Step Project Process:

- ✓ **Project Scoping:** Define goals & compliance needs
- ✓ **Site Assessment:** Conduct surveys & plan logistics
- ✓ **Field Execution:** Perform licensed removal or cleanup
- ✓ **Disposition & Reporting:** Compliant transport & closure
